# Accessibility Assistant Accessibility Conformance Report

## Revised Section 508 Edition

(Based on VPAT<sup>®</sup> Version 2.5)

**Name of Product/Version:** Accessibility Assistant

**Report Date:** March, 2026

**Product Description:** Accessibility Assistant is part of the iAccessible platform, a web-based accessibility testing and guidance solution designed to help organizations evaluate and improve digital accessibility. The tool provides guidance on WCAG and PDF/UA compliance through an interactive interface.

**Contact Information:** Revelo Software 5825 University Research Court, Suite 1100, College Park, MD 20742, [info@revelosoftware.com](mailto:info@revelosoftware.com)

### **Evaluation Methods Used:**

A combination of automated and manual testing techniques was employed for the accessibility assessment.

- Manual assessment was performed using Chrome Version 122.0.6261.129 on Windows 10, EDGE on Windows 10 and included exclusive use of the keyboard.
- Automated tools used included ANDI and WAVE web browser extension.

- Assistive technologies employed included NVDA 2023.3.1 on Windows. Limited spot testing was also conducted using VoiceOver on macOS and keyboard-only navigation across supported browsers. Full testing with JAWS and mobile assistive technologies was not completed as part of this evaluation.

## Scope of Evaluation

The accessibility evaluation focused on representative pages and core functionality of the Accessibility Assistant interface, including navigation elements, search functionality, and interactive controls.

Testing emphasized conformance with WCAG 2.1 and WCAG 2.2 success criteria at Level A and Level AA, as referenced by the Revised Section 508 standards.

Full testing with JAWS, mobile screen readers, and mobile browsers was not conducted as part of this assessment.

## Applicable Standards/Guidelines:

This report covers the degree of conformance for the following accessibility standard/guidelines:

Standard/Guideline	Included In Report
<a href="#">Web Content Accessibility Guidelines 2.0</a>	Level A (Yes) Level AA (Yes) Level AAA (No)
<a href="#">Web Content Accessibility Guidelines 2.1</a>	Level A (Yes) Level AA (Yes) Level AAA (No)
<a href="#">Web Content Accessibility Guidelines 2.2</a>	Level A (Yes) Level AA (Yes) Level AAA (No)

## Terms

The terms used in the Conformance Level information are defined as follows:

- **Supports:** The functionality of the product has at least one method that meets the criterion without known defects or meets with equivalent facilitation.
- **Partially Supports:** Some functionality of the product does not meet the criterion.
- **Does Not Support:** The majority of product functionality does not meet the criterion.
- **Not Applicable:** The criterion is not relevant to the product.
- **Not Evaluated:** The product has not been evaluated against the criterion. This can only be used in WCAG Level AAA criteria.

## WCAG and Revised Section 508 Reporting

Tables in this report document conformance with **WCAG 2.0, WCAG 2.1, and WCAG 2.2 Success Criteria at Level A and Level AA**, which are incorporated by reference in the **Revised Section 508 Standards**.

Specifically, the WCAG evaluation supports conformance with the following Section 508 requirements:

- **Chapter 5 – Software**
  - 501.1 Scope
  - 504.2 Content Creation or Editing
- **Chapter 6 – Support Documentation and Services**
  - 602.3 Electronic Support Documentation

## Conformance Scope

When reporting on conformance with WCAG success criteria, evaluations are based on the WCAG conformance requirements, which include:

- Full pages

- Complete processes
- Accessibility-supported ways of using technologies

These requirements are defined in the **WCAG Conformance Requirements** documentation published by the World Wide Web Consortium (W3C).

## Table 1: Success Criteria, Level A

Notes:

- Removed EN 301 549 Criteria because product is not being evaluated for it.
- Conformance Level of Electronic Docs: PDF, CSV and XLS documents are generated within the application for certain features and functions. Documents generated by the application are intended to support Section 508 requirements. Some generated PDFs may require additional tagging or remediation to fully meet accessibility standards.

## Table 2: Success Criteria, Level AA

Notes:

- Removed EN 301 549 Criteria because product is not being evaluated for it.
- Conformance Level of Electronic Docs: PDF, CSV and XLS documents are generated within the application for certain features and functions. Documents generated by the application are intended to support Section 508 requirements. Some generated PDFs may require additional tagging or remediation to fully meet accessibility standards.
